Pricing Breezway® Window Systems

Window Systems will be quoted by Breezway (standard order forms are available to speed up the quoting process and to eliminate errors of interpretation) or online quoting is available through the BOB Online system. Alternately, pricing can be manually calculated using the steps below.

Step 1 *Select Frame Type & Size and Louvre Gallery Features*

1. Choose the wind loading and water rating applicable to the relevant Australian Standards.
2. Select the Louvre size of 102mm, 152mm or IGLU® Clips.
3. Select 102mm or 152mm clips to suit 6mm or 14mm thick blades.
4. Select the Altair® Louvre features required – See *Features Table* below.
5. Select the frame size and dimensions to determine whether a Standard or Special frame is required.*
6. Select the configuration of the window e.g. Louvre / Fixed Lite / Louvre (*We view from inside out*).

* Special Frame heights that are more than 5mm greater than or more than 5mm less than a Standard Frame Height will have a top fixed blade. IGLU System Standard frame heights must be exact. The minimum glass extension blade height is 40mm. Any extensions requiring a lesser height will be provided as an aluminium blade in the same finish as the Breezway frame.

Features Table

Standard Frame Price	Special Frame Price
<ul style="list-style-type: none"> ➤ Standard frame width and Louvre gallery height (IGLU available in standard heights only). ➤ Black handles and clips for all finishes, except white handles and clips for Pearl White and Architectural White, and gull grey handles and clips for Anodised (Clear) 25µm. ➤ Keylock (not available with remote control handles, handle locking bar or Innoscreen Window System). ➤ Choice of 102mm or 152mm clips to suit 6mm or 14mm thick blades, or IGLU clips for double glazed blades. <p>“Off Standard” Gallery Features at NO EXTRA CHARGE:</p> <ul style="list-style-type: none"> ➤ Right hand control (viewed from inside). ➤ Low Profile Handle, Ring Handle or A6 Remote Handle. ➤ Variable handle position (not available with Innoscreen Window Systems). ➤ Blade opening restricted to 80mm or 100mm. ➤ Colour matched clips and handles for all standard colours. ➤ Powerlouvre™ Gallery (refer separate table in price list) 	<p>Off-Standard frame height (not available with IGLU).</p> <p>Calculating Price:</p> <p>Intermediate height = Full clip height + 10%.</p>

Step 2 *Decide Whether to Include the Stronghold® System*

The Stronghold System mechanically locks blades into the Altair Louvre Clips and may be required to comply with the fall prevention requirements included in the Building Code of Australia. Add the Stronghold Premiums (see page 28) to the price of the window system.

Step 3 *Select the Louvre Blades – Check the AS1288 “Glass in Buildings” requirement*

1. Select the blade material and the price per lineal metre (See Page 30). Multiply the price per metre (X) the frame width (X) the number of blades in the frame.
2. Add this price to the frame price.

Note: 14mm straight cut timber blades only fit into 14mm clips. Glass and aluminium blades only fit into 6mm clips.

Step 4 *Select Reveals, Couplers or Cover Plates*

Determine the perimeter of the frame and multiply that measure by the reveal price (See Page 29). Exact Reveal width and Flashing requirements should be specified at the time of order placement. A maximum of two Window Systems is recommended per coupled assembly.

All prices are List and in Australian dollars. Effective from 1st June 2022. Updated 9th June 2022.
Please note that Goods and Services Tax (GST) is not included in this price list.

Maximum Weights

Maximum weight of individual items supplied cannot exceed 70Kg.

Therefore:

- Blades may have to be packed separately to the frame,
- Supply of fixed lite glass may be declined (fixed lite bays would need to be glazed on your premises or on site),
- Supply of very large frames may be regretfully declined.

Important Notes:

- Window System specific notes located below system pricing (Please read).
- All Breezway® Systems are viewed inside-looking-out, due to the nature of louvre controls.
- Maximum individual painted frame width is 4,000mm.
- Maximum individual Easyscreen™ Window System width in stock 25µm Clear Anodised, Pearl White Gloss or Black Satin is 5,700mm.
- Maximum individual Innoscreen® and SL2® Window Systems width in stock 25µm Clear Anodised, is 5,700mm.
- Available IGLU® Easyscreen bay widths limited by stock IGLU blade sizes.
- Frames over these dimensions will need special arrangements, please contact Breezway.
- Maximum individual frame height for normal freight is 3050mm. Frames over this height will require special arrangements and quoting by Breezway.
- Pricing is for fully assembled.
- Window System prices do not include blades (See page 30 and 31 for details).
- If the Stronghold System is required, the Stronghold Premium should be calculated and added to Window System pricing.
- Stronghold® System Off-Standard height limitations apply for the following:
 - Easyscreen Window System: Std height + 24mm through to Std heights + 35mm is unavailable.
 - Innoscreen Window System: Std height + 26mm through to Std heights + 37mm is unavailable.
 - SL2 Window System: Std height + 19mm through to Std heights + 30mm is unavailable.
- Single Glaze and Double Glazed Fixed Lite combinations are available in select thicknesses.
- Unglazed fixed lite frames will be supplied with glazing wedge to suite but will not be supplied with foam-tape, due to this being affixed to glass before glazing. All double glazed configured frames will be supplied unglazed.

Breezway supply the following glazing wedges:

 - 32-68mm glazing wedge for 5mm and 6mm glazing.
 - 32-110mm glazing wedge for 18mm double glazing.
 - 32-95mm glazing wedge for 20mm double glazing.
 - 28-50mm glazing wedge for 24mm double glazing.

Breezway recommend the following foam tape dimensions:

 - 3.2mm x 12mm foam-tape for 5mm glazing and 20mm double glazing.
 - 1.6mm x 12mm foam-tape for 6mm glazing and 24mm double glazing.
 - 4.8mm x 12mm foam tape for 18mm double glazing.
- All Breezway Window System Fixed Lites are glazed internally.

All prices are List and in Australian dollars. Effective from 1st June 2022. Updated 9th June 2022.

Please note that Goods and Services Tax (GST) is not included in this price list.

© Breezway Australia Pty Ltd 2021

Powerlouvre™ Window Notes:

- Off-Standard Heights between 6mm and 42mm greater than a standard frame height are not available for 152mm Powerlouvre Windows.
- Off-Standard Heights between 1mm and 5mm below a standard frame height are not available for 102mm Powerlouvre Windows.
- Off-Standard Heights between 6mm and 44mm greater than a standard frame height are not available for 102mm Powerlouvre Windows.
- Off-Standard heights are not available for IGLU Powerlouvre Windows.
- Minimum bay width for 2-9 blade high Powerlouvre is 400mm.
- Minimum bay width for 10-18 blade high windows is 500mm.
- Powerlouvre Window System prices do not include transformers or Powerlouvre Apptivate® Control Units (see page 32 for details).
- Powerlouvre Window Systems are provided with 1m of cabling for power and control by electrician. If additional wiring is required, it is recommended this be advised and supplied by the electrician.

All prices are List and in Australian dollars. Effective from 1st June 2022. Updated 9th June 2022.

Please note that Goods and Services Tax (GST) is not included in this price list.

Breezway® Window System Lead Time (Working Days)

To achieve lead times, orders commence production throughout the day. Each process – cut, paint, assembly, packaging and despatch is scheduled over the lead time that has been allocated to your order.

Once the order has commenced production it will be too late to make changes to the order without costs being incurred.

Product	Standard Order Quantity	Bulk Order Quantity Lead Time To Be Confirmed
Easyscreen™ & SL2® Surround Frames	< 25 Bays	≥ 25 Bays
Security Easyscreen Frames	< 15 Bays	≥ 15 Bays
Innoscreen® Surround Frames	< 15 Bays	≥ 15 Bays
Glass Blades	< 200 Blades	≥ 200 Blades
Stronghold® Blades	< 100 Blades	≥ 100 Blades

Note: All standard lead times based on Standard and Secondary finishes. Special/Non-Stock and High-Performance finishes will require additional time. Unique and DecoWood finishes (other than WRC) will depend on supplier lead times.

Standard Australian Finishes

- Interpon D1000, Interpon D1010 and Dulux Duralloy powders.
- Clip & handle colours in Black, White, Gull Grey or colour matched.
- No colour premium.

© Breezway Australia Pty Ltd 2021

Breezway® Special Finishes

All stocked colours from the Interpon D1000, Interpon D1010, Interpon TC, Dulux Duralloy, Dulux PG288 and Dulux Precious ranges.

A non-discounted colour premium of \$193.00 is applied per order.

Clip and handle colours are only available in black, white or from the standard colour range only.

Breezway® High Performance Finishes

All stocked colours from the Interpon D2015 Ultriva, Dulux Duratec, Dulux Armourspray and Dulux Electro ranges.

A non-discounted colour premium of \$193.00 per order plus a 20% premium is applied.

Clip and handle colours are only available in black, white or from the standard colour range only.

Warranty periods for high performance ranges must be applied for approval from Dulux or Interpon. Applications must be made using project and site details and have a Warranty Certificate issued by Dulux or Interpon, prior to placement of orders.

If a Warranty Certificate is not issued by Dulux or Interpon, then maximum warranty period will be 10-year Breezway Warranty.

Breezway® Unique Finishes

Lead time is dependent on supplier's lead times and is quoted on application.

Unique Finishes include Anodised finishes (excluding Clear Anodised 25 micron), Dulux Alphatec, Dulux Surreal Effects and Made-To-Order powders.

Colour premium is dependent on finish type & quantity.

Clip and handle colours are only available in black, white or from the standard colour range only.

Textured powdercoat finishes like Interpon Sable Collection, Interpon Ripple Series, Dulux Surreal Effects, Dulux Scylla and Dulux Mannex may result in reduced water penetration resistance and air infiltration performance in some situations. Please contact Breezway if you are intending to use a textured finish.

Breezway® DecoWood Finishes

High performance marine grade photo image finish.

Standard lead time on DecoWood Western Red Cedar blades, channel and weatherstrip.

Lead time on other DecoWood colours is dependent on supplier's lead times and is to be confirmed by Breezway.

A non-discounted colour premium of \$193.00 is applied per order for DecoWood Western Red Cedar channel and weatherstrip. All other prices are on application.

Clip and handle colours are only available in black, white, from the standard colour range, or colour matched to Western Red Cedar.

Breezway® Australia Glazing & Safety Glass Policy

It is the customer's responsibility at order placement to ensure that the product satisfies AS1288 - 2021.

Responsibilities of the Fabricator

- Combinations of toughened and annealed glass blades are possible within Altair® Louvre Windows. The requirements of AS1288 should be considered when ordering glass blades as some locations in the building may require all blades to be toughened (eg wet areas, besides doorways) and some locations in the building may require only the lower blades (which have a higher risk of human impact) to be toughened. Mixtures of toughened and annealed glass blades are illustrated in the tables below.
- All quotes and orders require a Serviceability Limit State Wind Pressure, Ultimate Limit State Wind Pressure and Water Pass Rating and confirmation of the building type, or a N or C rating (e.g. 2200Pa SLS / 3300Pa ULS / 300Pa Water Pass or N5) to ensure that correct deflection allowance as per AS2047-2014 are applied. If this information is not supplied our customer service team will be unable to process the order until further clarification is received. This may cause a delay in the timely supply of the order.
- Fixed lite glass type, size and shape must conform to the requirements of AS1288-2021. Additional limitations of fixed lite sizes may be applied by Breezway due to manufacturing capabilities, or product performance limitations. The type and size of glass specified will be the responsibility of the Fabricator.

Example of combinations of toughened and annealed glass blades 152mm Altair Louvres
